Skapa åtkomst till MS Graph API

För att Ekonomi ska kunna använda Microsoft Graph API för att hämta och skicka epost krävs att det läggs upp en *applikation* med nödvändiga rättigheter i Azure AD. Denna lathund riktar sig till dig som har rätt att administrera Azure Active Directory.

För dig som redan är bekant med applikationer i Azure

Bilden nedan visar de rättigheter som krävs för att Ekonomi ska kunna använda Graph API för mailhantering. Application.ReadWrite.All behövs för att applikationen automatiskt ska kunna uppdatera *client secret* innan den upphör gälla. Utan den rättigheten måste *client secret* skapas och kopieras till Ekonomi manuellt när den är på väg att upphöra.

De mailkonton som behövs för inläsning BFO etc. behöver också läggas upp i Azure. Det är dock inget som beskrivs i denna lathund.

För att begränsa vilka mailboxar applikationen har tillgång till refereras till denna artikel. <u>https://learn.microsoft.com/en-us/graph/auth-limit-mailbox-access</u>

För den som vill ha en steg för steg-anvisning för applikationer i Azure

Här beskrivs steg för steg hur man registrerar en ny applikation och tilldelar nödvändiga rättigheter.

Börja med att logga in i Azureportalen med en användare som har rätt att administrera Azure Active Directory.

Registrera en applikation

Välj "Azure Active Directory", "App registrations" och "New registration".

Ge Applikationen ett namn och klicka "Register".

E Microsoft Azure P Search resources, services, and docs (G+/)	▶.	Ð	Q	?	ন্দ	vftadmin@vfttest.onmic VFTTEST
Home > vfttest App registrations >						
Register an application						×
* Name						
The user-facing display name for this application (this can be changed later).						
Vitec Ekonomi						
Supported account types						
Who can use this application or access this API?						
 Accounts in this organizational directory only (vfttest only - Single tenant) 						
Accounts in any organizational directory (Any Azure AD directory - Multitenant)						
🔿 Accounts in any organizational directory (Any Azure AD directory - Multitenant) and personal Microsoft accounts (e.g. Skype, Xbox)						
Personal Microsoft accounts only						
Help me choose						
Redirect URI (optional)						
We'll return the authentication response to this URI after successfully authenticating the user. Providing this now is optional and it can be						
changed later, but a value is required for most authentication scenarios.						
Select a platform V e.g. https://example.com/auth						
Register an app you're working on here. Integrate gallery apps and other apps from outside your organization by adding from Enterprise applicat	ions.					
By proceeding, you agree to the Microsoft Platform Policies 🗗						
Register						

Skapa "client secret"

Välj "Certificates and secrets" i menyn och klicka "New client secret".

Ange valfri beskrivning och välj en giltighetstid (vårt förslag 24 månader) och klicka "Add".

Spara tillfälligt undan **value** från Client Secret i t ex en textfil då den senare ska användas som uppkopplingsinformation i Ekonomi.

OBS att value i client secret bara kan läsas precis när den skapas. Nästa gång man loggar in ser man av säkerhetsskäl bara tre första tecknen. Värdet går inte heller att kopiera då utan man behöver i så fall skapa en ny "client secret" om värdet tappats bort.
